

# P2P University

## Mission

The Peer 2 Peer University is a grassroots open education project that organizes learning outside of institutional walls and gives learners recognition for their achievements. P2PU creates a model for lifelong learning alongside traditional formal higher education. Leveraging the internet and educational materials openly available online, P2PU enables high-quality low-cost education opportunities. P2PU - **learning for everyone, by everyone about almost anything.**

## OER University

- ▶ The OER university will:
  - enable accredited educational institutions to provide **assessment and credit pathways for formal academic credit** at reduced student fees, which lead to recognised credentials.
  - offer courses and programmes **based entirely on open education resources and open textbooks licensed under free cultural works approved open content licenses**.
  - implement scalable systems of volunteer student support through community service learning approaches.
  - promote the design and teaching of courses utilising open pedagogical approaches to facilitate networked learning.
  - use free and open source software for its administration.

## OER University Concept

## 「大学のオープン化に関するアンケート」

調査機関：① 2010年1月22日～28日

② 2011年4月21日～25日

調査方法：インターネット調査

総回答数：1200名

内訳：10代200名、20代200名

30代200名、40代200名

50代200名、60代200名

設問数：37問

21

## 問1. この取り組みについてどのように思いますか。
